Cloud4Scale: Process excellence for the scaling phase.

Create structure. Gain trust. Accelerate growth.

Young companies and start-ups face a critical hurdle: resilient and transparent processes are essential for successfully mastering the next round of financing. At the same time, agile business models require solutions that are ready for immediate use and do not tie up lengthy IT resources. Cloud4Scale was specifically developed to close this gap.

Your advantages at a glance.

- **Investor-ready from day one:** Solid finances and transparent processes are worth their weight in gold. With SAP on board, you signal to investors that your business is built on a scalable foundation. This opens doors to sources of financing that would otherwise remain closed.
- **Maximum flexibility:** Not sure where the journey will take you today? No problem. Cloud4Scale is the best localized tool on the market and adapts whether you're entering new markets or pivoting your business model.
- **Simplicity instead of complexity:** Forget endless workshops. We deliver best practices and preconfigured processes. You get a system that works so you can focus on your core product.
- **No re-platforming:** Once implemented, the system grows with you. You'll never have to change software again just because you're successful.

Get SAP
Cloud4Scale in
7-8 weeks

Week -2 – 0
Kick-off & Scope Freeze

Week 1 – 2
Configuration & data check

Week 3 – 4
Solution Walkthrough

Week 5 – 6
Testing & Readiness

Week 7 – 8
Go-Live & Stabilization

WHY CNT MANAGEMENT CONSULTING?

A Ferrari is useless without the right driver. CNT is your co-pilot. We combine the process expertise of a global consulting firm with the agility that young and ambitious companies need.

- **Certified expertise:** As a strategic SAP partner, we have in-depth expertise in process optimization. We identify the key levers to make your system landscape productive in the shortest possible time.
- **Focus on efficiency:** We respect your time as your most valuable resource. By implementing a “minimum viable scope” (MVS), we concentrate on the business-critical core functions to ensure immediate operational readiness.
- **Maximum transparency:** We believe in cooperation on an equal footing. Clear cost structures and understandable, solution-oriented communication are the basis of a reliable partnership for us – without unnecessary complexity.

OUR PROMISE TO YOU

The Cloud4Scale fixed-price model (starting from CHF 149k) offers predictability and is crucial for your burn rate. That's why we offer Cloud4Scale at a fixed implementation price:

Clear scope of services • Fixed time frame • No budget overruns

We would be happy to show you how you can benefit from highly efficient SAP processes in no time with Cloud4Scale Fast. Arrange your no-obligation strategy consultation now.
